

Aqua TROLL® 400 Multiparameter Instrument

Configuring your instrument can be time-consuming, frustrating, and expensive. The compact Aqua TROLL 400 Instrument simplifies decision making by offering a standard suite of six sensors. The durable probe continuously measures 12 parameters:

- Actual and specific conductivity, salinity, total dissolved solids, resistivity, and density
- Dissolved oxygen
- ORP
- pH
- Temperature
- Water level and water pressure (absolute)

Leveraging proven technologies, like the patented, EPA-approved optical RDO® Sensor, the instrument decreases setup, calibration, and maintenance time. Ideal for long-term groundwater and surface-water monitoring projects, you can deploy the probe for months of unattended operation. Partner with In-Situ to meet the challenges of reduced manpower and 24/7 demand.

Confidence in Your Data

- Field-tested sensor technologies lower your total cost of ownership and provide stable, accurate results.
- Sensors are factory-calibrated with NIST®-traceable standards (where applicable).
- DO readings are automatically compensated for salinity. With the Con TROLL® PRO System, DO and level readings are automatically compensated for barometric pressure.

Greater Efficiency and Flexibility

- Easy installation reduces errors and training time, while increasing productivity.
- With open communication protocols, the instrument easily interfaces with your current system. Access data anytime with a radio, controller, data logger, sampler, telemetry system, or SCADA/PLC system.
- Long-lasting calibrations reduce site visits.
- The narrow-diameter instrument operates in fresh, marine, and process waters.

Outstanding Customer Service

- Free application and deployment guidance
- Free, 24/7 technical support
- Seven-day service for maintenance and calibration (U.S.A. only)

Applications

- Long-term ground- and source-water monitoring
- Coastal deployments—estuaries and wetlands
- Real-time water quality monitoring networks
- Remediation and mining
- Stormwater management
